

Capita SIMS Installation

Updated: May 2017

© Wonde Ltd

Prerequisites

Please make sure that all of the requirements outlined in “Wonde - Capita SIMS Requirements” document are met before attempting to install Wonde on your server.

Installing

1. Login to SIMS.net as a System Manager
2. Create a new user with the following details:
 - a. Surname: wonde
 - b. Forename: user
3. Add the following groups to the newly created user:
 - a. Assessment Co-Ordinator
 - b. Personnel Officer
 - c. School Administrator
 - d. Senior Management Team
 - e. Third Party Reporting
4. Make note of the username and password, save the user, and log out.
5. Login as the Wonde user to check the account was created successfully. This will prompt you to change the password.
6. Run the *WondeInstaller.msi* file follow the Wizard accepting the default values.
7. Navigate to the Wonde folder within your computer’s program files folder.
8. Run *Wonde.exe* with administrator permissions.
9. Click Settings > Site licence and enter the site licence provided by Wonde.

10. Click add school and fill in the settings as shown in the picture below.
 - a. Licence Key: Provided by Wonde
 - b. Server: Server hosting SIMS database
 - c. Database: Name of the SIMS database
 - d. Username: Username created in step 2-4
 - e. Password: Password created in step 2-4

The image shows a Windows-style dialog box titled "Add School". It is divided into two main sections. The first section, "Wonde Settings", contains a "Licence key" field with the placeholder text "XXXX-XXXX-XXXX-XXXX". The second section, "Sims settings", contains four fields: "Server" with ".\SIMSSERVER", "Database" with "SIMS", "Username" with "simsuser", and "Password" with seven asterisks. At the bottom of the dialog are two buttons: "Add School" and "Cancel".

NB: If the school is added correctly, you will see the school name and settings displayed.

11. Run the wyupdate.exe file within the Wonde SIMS folder and follow the update Wizard
12. Check the "Wonde recovery service" is running
13. A Wonde technician is required to confirm that data is being successfully received.
